

Reach for the Moon

Want to learn to drive a rover on the Moon?

Submit a 1-minute video to win a chance!

Are you a grade 8-12 student in Canada or India?

Tell us what makes you excited about space exploration and what experiment you would run on the Moon.

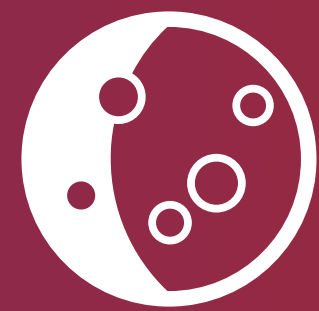

The winners will get to remotely drive a real rover at our Moonscape in Ottawa, Canada

Reach for the Moon

Contest Description & Rules

Mission Control and Axiom Research Labs (ARL) are excited to give a unique opportunity to grade 8-12 school students in Canada and India.

Would you like to learn to drive a rover on the Moon? We want you to submit a video telling us what makes you excited about space exploration, and if you could run any experiment on the Moon, what would it be?

With the help of our amazing judges who are experts in planetary science and space robotics, we will select 3 winners each from Canada and India to get a chance to drive our rover around the Mission Control Moonscape in Ottawa, Canada, simply using a web browser. You'll get a taste of driving a rover on the Moon someday!

As part of the activity, you will also get to participate in a fun virtual session led by Dr. Melissa Battler, Chief Science Officer at Mission Control, where you can learn about planetary science and robotics missions.

To enter the contest, follow the rules on the right, and we encourage you to share the video on your social media channels with the tag **#ReachForTheMoon**

Please follow these rules for your submission:

- The video must not exceed 1 minute
- You must be a grade 8-12 school student in Canada or India
- You must have the rights to use all the content in your video (images, music, etc.)
- All entries must be submitted in English
- Upload your video to YouTube, set it to public, and include the following information in the video description: your first and last name, your age and grade, and your school's name, city, and country.
- To complete the submission, fill out our form here: <https://forms.office.com/r/CGvEZE2Tdn>
- If you are under the age of 18, you must have a legal guardian confirm to the terms and conditions of participation that are described in our form.
